 Harrison, NJ

EDUCATION

Master in Data Science	Jan 2023 - Present
New Jersey Institute of Technology	Newark, US
Key Courses: Corporate Finance I, Machine learning, Deep Learning	
GPA: 3.8	
Graduation Date: December 2024	
Bachelors (Computer Engineering)	Sep 2012 - Jul 2016
Sinhgad Academy of Engineering	Pune, India
Graduation Date: May 2016	

TECHNICAL SKILL

Python, Salesforce, Tableau, SDLC, Azure DevOps, Git, Jenkins, SQL, Agile

Behavioral Skills

Communication, Writing, Presentation, Quick learner, Problem Solving, collaborative

PROJECTS

- **Bank Stock Data Analysis:** Using the Alpha Advantage API fetched the top bank stock market data to do analysis using interactive graphs **plotly** and **cufflinks** by checking the returns and the impact of new Covid-19 cases in these bank stocks. The result was these stocks have good returns while Covid-19 had minimal impact.
- **Data Cleaning in python:** Did a data cleaning project and analysis on python which involves the use of movies dataset using the **pandas**, **numpy**, **matplotlib**, **seaborn** and **sci-kit learn** libraries. It showed a strong co-relation between the movie's gross income and with other features such as Actors, Budget etc.
- **SQL Covid-19 Analysis:** Leveraged the **advance SQL** Queries such as **partition by**, **CTE** and queries to perform deep analysis on Covid-19 vaccination, infection and death rates which revealed many interesting trends.
- **Covid-19 Tableau Analysis:** Using the data retrieved via SQL created a **Tableau dashboard** to visualize that Covid-19 data. This includes Tableau of infection rates, death rate across the continents, death rate by year and other such graphs.
- **Predict Future Sales Data:** This project involved prediction of total sales for every product and store in the next month. The data was cleaned and prepared the data for further **data analysis and machine learning**. The results were within 2% of margin of error as compared to test data.

PROFESSIONAL EXPERIENCE

Consultant	Nov 2018 - Dec 2022
Deloitte	Bengaluru, India
<ul style="list-style-type: none">• As a salesforce support, resolved 100% of Production bugs by analyzing 1000+ lines of code, checking over millions of records of data, and checking the 10,000+ lines of debug logs• Quickly closed out time sensitive quarter/year-end deals which are worth millions of dollars by resolving production bugs within 4 hours• As a salesforce developer, developed and deployed over 100+ features to the client which enhanced and improved the usability of their applications• Collaborated with various members of the team in delivering 50+ features to the customers• Trained team members in DevOps using the knowledge in Azure DevOps which improved their time taken deliver the features less than 2 days• Briefed on 50+ technical documents to the client about the features developed and its impacts• Tutored new associates by organizing 30+ hours of various knowledge sessions and preparing training documents	
Software Engineer	Dec 2016 - Nov 2018
Accenture	Bengaluru, India
<ul style="list-style-type: none">• Implemented 10+ new features for the client by using problem-solving skills in the Agile model• Aided in deployment of new features to production org as part of DevOps process using tools such as Git and Jenkins	

CERTIFICATIONS/TRAINING

Data Engineering Foundations, Salesforce Certified Administrator, Tableau Essential Training, Power BI Essential Training
